RW ROGERS COMPANY

Sustainable Plastic Cart

Our all-plastic shopping cart is a smart choice for your retail environment. It's durable and easily maintained. Unlike traditional metal shopping carts, these carts are resistant to rust and corrosion, and their lightweight construction allows for easier maneuverability.

QUICK FACTS

Sustainably made of recycled plastic
- Rust free
- Less theft and less damage to cars and store fixtures
- Money saving

Longer cart life
- Heavy-duty polymer construction
- Multi-piece construction with replaceable parts allowing for a longer cart life

Ribbed caster plate and tray
- Reduces the surface area for rain water collection
- Reduces chance of slip and fall accidents

Rear wheel lift
- Rear wheels are raised off the ground when nested to reduce flat spots

Colors
- Body available in black
- Accent colors: red, green, blue, black and gray

Specifications
- Nesting distance: 12"
- Weight: 58lbs.
- Basket capacity: 11,575 cubic in.
